

FISCAL MEMORANDUM

SB 2798 – HB 3268

April 14, 2008

SUMMARY OF AMENDMENT (016672): Requires that volunteers trained to administer anti-seizure medication also be trained to administer cardiopulmonary resuscitation (CPR). Requires that a student's parent or guardian inform the school when anti-seizure medication has been given when the student is not in school and that each student's individualized health plan (IHP) set forth the requirements of this reporting.

FISCAL IMPACT OF ORIGINAL BILL:

Increase State Expenditures – Not Significant

Increase Local Expenditures* - \$13,600

**Article II, Section 24 of the Tennessee Constitution provides that: no law of general application shall impose increased expenditure requirements on cities or counties unless the General Assembly shall provide that the state share in the cost.*

FISCAL IMPACT OF BILL WITH PROPOSED AMENDMENT:

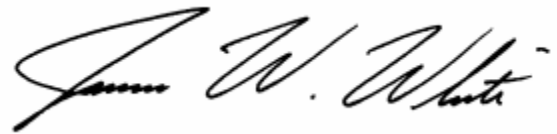

Unchanged from original fiscal note.

Assumptions applied to amendment:

- Requiring that registered nurses provide CPR training to volunteers in addition to the training required for providing emergency anti-seizure medication will have no fiscal impact on state or local governments.
- LEAs will be responsible for providing any training materials required. According to the DOE, this cost is estimated to be \$100 per LEA. The total recurring cost in training materials is estimated to be \$13,600 (136 LEAs x \$100 = \$13,600).

CERTIFICATION:

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, reading "James W. White". The signature is written in a cursive style with a large, stylized "J" and "W".
